INSTRUCTIONS
FOR PRODUCT

OA3650
Nettlestone Library Ensemble

Thank you for your purchase!

This piece of furniture is handcrafted and hand-painted using a technique that is centuries old. The books decorating the sides of the table and chairs are individually hand-painted. The tabletop is a solid burlwood veneer that is polished and buffed, then finished with 8 coats of protective lacquer.

Please avoid placing sharp objects or metal ware in contact with the table surface. Small hairline scratches may appear and can be buffed out using a polishing kit (not included). Cleaning with a soft cloth will maintain the table's high gloss shine.

Instructions for Touch-up

Procedure for Hand Buffing:

1. Surface must be clean and thoroughly dry.
2. Shake polishing compound well before using.
3. Apply compound with soft, lint-free cloth.
4. Buff in a circular motion until dry.
5. Wipe off residue with a clean soft cloth.

We hope you enjoy this fine furniture piece for many years to come.
